SURFACE SHIELD® & SURFACE SHIELD® Plus

**10-year
Limited
Warranty**

FINISH every remediation job RIGHT with SurfaceShield

Truly complete your drying jobs and help protect against future water damage by treating wallboard, brick, wood and engineered wood products with SurfaceShield® or SurfaceShield® Plus Protectant.

Its penetrating technology helps prevent future microbial contamination and staining* by blocking the nutrients that promote mold and mildew growth from reaching the surface.

SurfaceShield uses a patented technology that drives protection into materials and provides a moisture-resistant, breathable coating that's sandable, colorless and highly resistant to future water damage.

Xactimate® code: PNT+++

**Don't trust antimicrobial paints
to block mold & mildew**

SurfaceShield.LegendBrandsRestoration.com

- Sandable moisture-resistant, breathable coating
- **One coat** with an airless covers up to 1,000 sf per gallon
